Project Plan for Turtle Catalog

Objectives

I plan to build a webpage that illustrates some signature wild turtle species and run some visualization tool to let users have a better view of the distortion of them.

Target audience

People who are inserted in wild animal and marine animal.

Timeline

Milestone	Date
Design mockup submitted for approval	
Draft site published to development	
Final Approvement	

Basic Layout of the Website

I painted a draft layout of what my website looks like. At the top, there is a brief description of the site. On the left hand is a column of list containing all the categories On the right panel, I have menu as tabs for various topics
